Supply of Official Seed Certification Seals – Price Increase

Unfortunately, due to exceptional circumstances this year which has seen the cost of raw materials and freight greatly increase, it has become necessary to increase the price of official seed certification seals to maintain supply to the trade. This increase has been agreed following consultation with the official supplier (JW Products), APHA and the Devolved Administrations.

This will result in the price for 1000 seals rising from £40 to £49.20 (these prices include delivery but exclude VAT). This price increase will come into effect immediately, as the previous contract price is currently unsustainable. APHA on behalf of the Scottish Government and other devolved administrations will review the price increase at regular contract meetings with JW Products and should there be a reduction in the cost of raw materials and freight, this would be reflected in the price available to the trade.

Official seal supplier contact details:

Tom Beresford, JW Products Limited
DD: +44(0) 1252 624305
